All voted yes and all members signed the affidavit.

~ Resolution #4 – 2015

Approving Application to Local Finance Board

There have been many discussions during the past couple of weeks regarding the Environmental Infrastructure Trust loan, deadlines and the fact that the principal forgiveness is no longer being offered. The subcommittee investigated the possibility of refunding the 2007 bonds in conjunction with bonding the funds needed to complete the two projects instead of going through the Trust. Although it is still only an idea, if the Authority is going to move on this quickly, an application must be submitted to the Local Finance Board for their approval. Motion Mr. Schwemm second Mrs. Prendergast to authorize the application to Local Finance Board, although there have been no definitive decisions at this time on which financing route to take. A roll call vote resulted in all members present voting yes.

Motion Mrs. Prendergast seconded by Mr. Pfrommer to authorize the current subcommittee of Mr. Schwemm, Mr. Polistina, Mr. Ridgway and Mrs. Super to proceed with the additional investigation into the refunding of the 2007 bonds and the potential new bond issue. All voted yes.

The Treasurer's report, provided by Mr. Schwemm, was accepted by the Authority.

Authority Clerk Report

~ Resolution #5 – 2015

Motion Mr. Schwemm, seconded by Mrs. Prendergast to approve the December 2014 account adjustments. All voted yes.

Block 9405, Lot 1 [2 Point Drive]

Mr. Leonard Dagit requested a refund for sewer service charges he paid from the time his home was hit by Super Storm Sandy until the time it was demolished. Mrs. Super further shared that there are approximately 15 additional homes that are in the same situation. Motion Mr. Schwemm second Mr. Duffy to authorize a refund since Mr. Dagit's home was condemned. All voted yes. Mr. Schwemm made a second motion, which was seconded by Mr. Pfrommer to authorize a refund to the other homeowners whose homes were condemned after the storm. All voted yes. Appropriate condemnation proof will be required.

Block 1442, Lot 1 [6208 Black Horse Pike] Tulipano Restaurant

Approvals had been granted by the EHT Building Department for this Italian restaurant, however, they failed to require MUA approval for the changes. There is no grease trap and no approvals for the additional seating. Mr. Ridgway will prepare a letter to the property owner advising them of the MUA requirements for the restaurant.

Motion Mr. Schwemm second Mr. Duffy to approve the December 2014 public and closed meeting minutes. All voted yes.

Chairman Davis brought up a previous discussion regarding commissioners receiving health benefits. As the discussion ensued, Mr. Schwemm and Mr. Duffy recused themselves from the conversation. A motion was made by Mrs. Prendergast, seconded by Mrs. Moschetto to continue providing health benefits for those commissioners already enrolled in the benefits plan so long as there is no disruption of service to the Authority. All voted yes except Mr. Schwemm and Mr. Duffy who abstained.

A motion to adjourn the meeting was made by Mr. Schwemm, seconded by Mrs. Prendergast at 6:45 pm. All voted yes.

Engineering Projects

1. **Emergency Maintenance Contract**

Kline Construction completed several miscellaneous repair items during the past month. They repaired a section of sanitary main on Sycamore Avenue that was damaged by a water service. The damage was found by the crew for the 2014 Video Inspection project. Kline also repaired a clean out at 106 Lyons Court. We utilized Kline Construction in locating the remainder of the Lakeside force main. We also received the final billing for the location of cleanouts in the Bargaintown portion of the Township.

We have recommended a payment in the amount of \$14,881.13 from the Operating Account for the work completed.

2. **ACUA Contract Administration**

The maintenance logs from the ACUA during the past month have been normal overall. The ACUA did notice a runtime variance during a one week period between the two pumps at the Ocean Heights station but could not determine a cause. There are currently three stations operating with a single pump. One pump was removed from the Lyons Court station last week due to a motor issue. Meadow Run is also operating on a single pump due to a pump failure. We have received a repair quote in the amount of \$7,567.00 from Willier so we are looking into the costs of a replacement unit.

We are waiting for the ACUA to complete the replacement of the seals for pump # 2 at the Trailer Park station, but the pump can be used if an emergency developed.

The adapter for the replacement pumps for the Cardiff station were delivered to the ACUA and they expect to install them later this week.

3. Wet Well Cleaning Contract Administration

Caprioni Family Septic completed the normal monthly basket and wet well cleaning over the past month. They also completed the preventative maintenance jetting at several areas identified by the Authority Operator. Caprioni also provided emergency jetting at English Creek Avenue and the Black Horse Pike to clear a gravity main.

We have recommended a payment in the amount of \$10,010.50 from the Operating Account for the work completed in December.

4. Spills

There were no spill incidents within the last month.

5. FAA Pump Station Upgrades

We recently received some additional comments from the Pinelands Commission, which we have responded to. We expect to receive approval within the next 30 days.

6. Miami Pump Station Elimination

We have been analyzing the capacity of the privately owned pump stations to determine the best method to service the remaining customers. We need to verify the location of the existing utilities and conduct test pits to ensure there will be no utility conflicts.

7. GIS System - As-Built

All of the information obtained from the Bargaintown project has now been included in the GIS system. There are still cleanouts that we were unable to locate due to landscaping, or in the vicinity of driveways but we will add those as they are found.

8. Reega Reserves Video Inspection

The Authority awarded this project at the last meeting to Video Pipe Services. They began work last week and expect it will take 4 to 5 weeks.

9. Lakeside Force Main Locate

We had utilized the Authority contractor, Kline Construction, to help verify the actual location of the force main from the Lakeside pump station. The work was originally completed last summer and there were some areas where they were unable to access due to heavy vegetative growth. With the trees now bare we had Kline locate the force main in these areas.

A survey of the force main will be completed and we will prepare a proper easement document.

10. Washington Avenue Interceptor Rehabilitation

Our office has submitted the design package to the NJDEP for their review and we are continuing to pursue approvals from the DEP and Environmental Infrastructure Trust.

Developer Projects

Extension Applications

There are no developer funded sanitary system expansion projects currently underway.

Connection Applications

1. DSW Homes - 206 Athens Avenue

The applicant has submitted an application to construct a single family dwelling and a new lateral connection.
