Egg Harbor Township "Aces" Best Practices Inventory

The State of New Jersey requires all municipalities to complete the Best Practices Inventory. The purpose of the inventory encourages municipalities to embrace practices that promote financial accountability, sound management, and transparency.

The Township Committee reviewed their best practices inventory findings for calendar year 2017 at their meeting of September 20, 2017. The Township scored a one hundred percent (100%) on the State's Best Practice Inventory.

Deputy Mayor Paul Hodson stated "the Township's score on the Best Practices Inventory clearly demonstrates the Township's commitment to provide financial accountability, good solid management practices, and transparency to our residents in all of our activities."

As an accountant, Committeewoman Pfrommer commended the efforts of all the Township Department Heads and the Finance Office for their professionalism in compliance with all of these regulations.

The Township has scored above ninety-five percent (95%) every year since 2010 when the Best Practice Inventory was implemented.

Deputy Mayor Hodson reiterated that "residents of Egg Harbor Township can take comfort in knowing their local government is providing services at levels which are highly commended by the State of New Jersey for good government."
